## *President's Message*

Greetings!!

It is a beautiful, although chilly fall day. I hope many of you are able to get out and enjoy the colors and crisp air. As I begin my final president's message I am filled with bitter sweet thoughts. First, I want to say it has been an honor and a privilege to serve as your club president these past 6 years. It seems like such a very long time and yet it went by surprisingly quick.

The club is in very good standing. Our membership has remained stable. Our finances are in good shape. We have great participation on maintenance trips with several new section maintainers. The hikes and activity offerings are unbelievable and we have several new hike leaders. I'm still trying to decide if that is due to the recognition dinners, which were a great addition. I would be remiss in not saying that the success of the club is not due to one person but to the many who have stepped up to serve.

I would like to thank a few other board members who will be stepping down the end of this year as well. Karl Huber has served land management chair the past 6 years. He has done a great job updating and streamlining the border monitoring program as well he has been a great asset to overall club management. My thanks and appreciation to Dennis Schafer and Leonard Adkins who have served in their positions the past 2 terms. Susan Kidd has kept the Walker going the past 3 years; without her willingness to do so there would have been no newsletter. There are several current board members who have agreed to continue another term. These individuals were also a pleasure to serve with and I know will continue to move the club forward.

During my tenure as president, the club participated in hosting the 2011 Virginia Journeys biennial AT conference. We celebrated our 45<sup>th</sup> club anniversary with a great turnout of club members past and present. These 2 events were quite the undertaking. If not for the leadership of Sue Kropp, I'm not certain we would have had the level of participation at the 2011 conference or such a successful 45<sup>th</sup> celebration. I know she was not alone in coordinating these activities and had very good assistants, but boy can this lady rally the troops!

Perhaps viewed as a bit more mundane, the ODATC By Laws and Standing Rules were updated. The Board meetings went from monthly to every 2 months. Significant administrative changes were made with the updating of our club website provider and membership process. In addition to the behind the scenes features, this was a big improvement over the old website and there are still many more features to be explored to make the site even more dynamic. There are also facebook and twitter sites for the club, although I still haven't tried to tweet!

## *President's Message - cont'd*

What does the future hold for the club? I know we will continue our efforts to promote the club and its purpose along with other outreach opportunities. I am sure the number of hikes will continue to grow. While I am not certain there will be the impact on the AT that was anticipated by the movie, regardless I know our trail section continues to grow in popularity and use which will impact our shelter and privy significantly. There is also an increased expectation by our federal land management partners for club volunteers to do more which will undoubtedly lead to some interesting discussions at future regional meetings. For me, there are still things I would like to have accomplished; some that I hope to assist the new president in completing. I will still be assisting Fran as a section maintainer and participating on more work trips, maybe try the border monitoring. I intend to hike more and lead a few hikes as well. Guess you'll still be seeing me around!!

Don't forget our club meetings have shifted to the second Tuesday at the Science Museum of Virginia on Broad Street in downtown Richmond. The next meeting will be November 10 and is also considered the annual business meeting with the election of new board members. There is a great speaker lined up so be sure to join us at 6:30 for socializing before the business meeting begins at 7pm.

Can't believe I am saying this already, Happy Holidays and best wishes for a great new year!! Thanks again for the opportunity to be your club president.

Happy Trails! Theresa

#### **November 14 (Saturday) Tye River to Montebello Fish Hatchery (B/1)**

If we're lucky and autumn's colors linger, we'll get some of the potentially best leaf peeping views of the valley – The catch is – you'll work for the views! Since this will be a point-to-point hike and the days will be shorter we'll leave town early so we can set our shuttle and be done hiking before dark. Starting at the Tye River, we'll hike about 3.5 miles up to the Priest (elev. Gain ~ 3100 ft) for our first view of the Tye River Valley. From the Priest we'll head south about a mile (elev. Loss~1200 ft) past the top of Crabtree Meadows then hike about 3.5 miles up to Spy Rock (elev. Gain~1260 ft) for our second great view (360 degrees). Getting up / down Spy Rock requires a rock scramble up the side of the rock cliff – not very technical but more than just boulder hopping! The trail down to the fish Hatchery is about 2 miles. We usually stop for dinner at one of the Rockfish Valley's restaurants, so plan your car pool accordingly if you plan to head straight back to town. Because of the elevation gain / loss and rock scramble I'm rating this hike at B1 – not too far but very strenuous. Bring a lunch, snacks, water, etc. Email me at [Dvgrimes.54@gmail.com](mailto:Dvgrimes.54@gmail.com) for more information.

#### **November 18 (Wednesday) Grove Avenue Neighborhoods - RVA (C/4)**

#### **November 21 (Saturday) Prince William Forest Park (C/3)**

Aseeyah and Tom Rhinesmith ([solitude1957@hotmail.com](mailto:solitude1957@hotmail.com)) invite you to a pleasant walk in the woods at Washington D.C. area's signature national park. We will be doing a five to six mile hike with a significant part of it along the Quantico Creek. All those interested should meet us at the Manakin / Rockville park & ride no later than 8:00 A.M. #### **November 25 (Wednesday) Classic Richmond Neighborhoods RVA (D/4)**

The hike will begin in the municipal parking lot at Bevell's hardware and will wind through the town, stopping downtown for lunch and then back to the hardware to view the model train exhibit. The train exhibit is 20' X 58', and some portions change from year to year. This is truly a highlight for this small town of 3,600 people. The exhibit is open from Thanksgiving to the first week in January, and last year 31,000 people went through the hardware store door during this time.

Bill will coordinate a carpool from the "Park and Ride" at the intersection of US 360 and Route 153, about 35 miles west of Richmond. This carpool will leave at **9:25 AM**. If anyone wants to coordinate a carpool from the Richmond area, email Ted McGarry for posting on the web page. You should plan on leaving Blackstone around 2:30 PM if you plan on seeing everything available.

As you enter the town of Blackstone the speed limit drops to 25 mph, slow down, the police don't have much to do in Blackstone. Just before the first stop light there is a MacDonal'd's on your right (this is the

rest room stop), if you miss this stop go one block and you will see a Hardee's also on the right (your second chance for a rest room stop). We will turn left at the Hardee's, onto Tavern Street, and the municipal parking lot is a ½ block on your right, in front of the Bevell's Hardware. We will meet here at 10:00 AM for a short briefing and begin our hike.

## **Upcoming Programs - Sue Kropp, Contributor**

**November 10, 2015** - David Spears, the State Geologist since 2009 will speak on the geology of western Virginia specifically as it relates to the Appalachian Trail. Geology controls the topography, and therefore played a large role in the location of the trail. This is our opportunity to find out what lies below our feet (besides rocks, lots of rocks). Come join us at our new meeting location, The Discovery Room at the Science Museum of Virginia, 2500 West Broad Street, Richmond VA 23220-2057. Snacks to share are always welcome. Join us at 6:30 for some socializing time before the meeting begins. For more information contact Sue Kropp at: [odatc.programs@gmail.com](mailto:odatc.programs@gmail.com).

**January 12, 2016** - For those of you who did not attend the Biennial ATC Conference in Winchester, VA this past July, are in for a real treat. Our very own Hank Harman will repeat his presentation given at the conference on "Hiking the AT in the 1940's". This will be a real eye-opener to see how far we have come

(or not) in equipment and technique. Hank will delight us with a few stories of his hiking experiences on the AT at age 16. Don't miss this 75 year veteran of the AT.

All general club meetings are now being held on the second Tuesday of January, March, May, September and November at The Virginia Science Museum located at 2500 West Broad Street, Richmond VA 23220-2057.

The meetings officially begin at 7PM, but members are encouraged to arrive 30 minutes early for socializing. Snacks to share are always welcome. For more information contact Sue Kropp at [odatc.programs@gmail.com](mailto:odatc.programs@gmail.com).

## **INFORMATION KIOSKS - EAGLE SCOUT PROJECTS**

ODATC now has 2 very nice information kiosks located at either end of our trail section. Both were Eagle Scout projects completed by 2 fine young men from Richmond based Troop 760. The first located at the southern end at Reid's Gap was completed in 2014 by Stephen Purdue. The second located at Rockfish Gap was completed in August 2015 by James Scott. Under the guidance of club member and scout leader Richard Brett and several other troop leaders, Stephen raised the funds needed for his project and James was able to use ODATC funds obtained through the LL Bean grant program as well as raised additional funds for his project. The process to obtain permission to construct these kiosks on federal land was quite the learning process for all involved, with Stephen being the one to experience the full effects of the federal

review process as his project was the first proposed. Karl Huber and Dave Grimes have been developing updated trail maps and other informational posters for these kiosks. Despite the long wait for approvals, the completed project will benefit all who hike along our trail section.
